ABSTRACT

The aims of this research are to find out the common sentence errors on students’ bachelor thesis of English Education Department and to find out the amount of sentence errors on students’ bachelor thesis of English Education Department. Those should be the reference material in evaluating and teaching English subject. This research used the qualitative method by technic of collecting the data such as observation sheet and documentation. The researcher used surface strategy taxonomy to analysis the datum. That consists of omission, addition, misformation, and misordering. The result of research showed that the biggest error in writing sentence on students’ bachelor thesis of English Education Department was addition by 81 sentences. The second error was misformation by 30 sentences. Then, omission was 19 sentences. Thus, the smallest error in writing sentences on students’ bachelor thesis was misordering by 17 sentences.

Keywords: Analysis, Surface Strategy Taxonomy, Students’ Bachelor Thesis, Sentence Errors.
A. Introduction

Bachelor thesis is the scholarly paper that discuss about the problem or phenomena in the specific science by using the right rules. The observation of problem or phenomena can be found on the education environment. It will be written or arranged through the planning activity and realization activity until finding the result of research based on the analysis of datum. Because students are arranged or written not only as the form of academic assignment but also compulsory as the part of the requirement of education to get the success or passing.

The research is operational of scientific method. It is the effort to solve the problem based on the steps on scientific method. Therefore, bachelor thesis has the purpose to enable the student to write the research in accordance to academic writing. The research has the aims to develop the science from the various knowledge. Thus, the result can use to define new theories, to prove theories, and to develop theories.

Based on the aims above, thus bachelor thesis becomes the obviously for college and university to get their scholar. Students’ custom to do the research and to describe phenomena based on research and academic writing. However, many students find difficulties in doing good bachelor thesis. One of the difficulties is using academic writing especially when they write in English language.

The writing of bachelor thesis that uses English language is not easy for everyone. The knowledge about English grammar and sentence is very important to write the bachelor thesis. Thus, the writer is not only easy to arrange the sentence but also it can be understood by the reader. Because of that, the right sentence is one of the requirements in academic writing included bachelor thesis. Therefore, the sentence must arrange grammatically based on grammar rules in English. The students should be able to understand how to write English sentence a good order on composing their bachelor thesis.

Sentence error analysis, then make the students learn how to identify or to analysis their error in writing. The researcher wants to observe some bachelor thesis in order to find out the general error of students when they write their bachelor thesis. There were four types of sentences commonly. They are omission, addition, misformation, and misordering. The researcher interested to do error analysis on students’ bachelor thesis of English Department because some reasons that I said above.

The students demand to be able to compose grammatical sentence on their bachelor thesis. However, in the pre-observation research, the researcher found some bachelor thesis containing many sentence errors. Therefore, it is important to know the common error which students made bachelor thesis.

B. Research Method

The method of this research is qualitative research. It is based on the research focus; to analysis the sentence errors on students’ bachelor thesis of English Department at IAIN Sultan Amai Gorontalo. The research also used the content analysis. Content analysis is a research technique for making inferences
by systematically and abjectly identifying specified characteristics within a text. In another definition by Bernald Barelson, content analysis is defined as “a research technique for the objective, system and quantitative description of manifest content of communication. The requirement of the technique to be “objective” and “systematic” is of course subsumed under the requirement of reliability in our definition (Klaus Krippendorff, *Content Analysis*, Volume 5 : 21). Then the same definition argued by Fred N. Kerlinger, “Content analysis is a method of studying and analyzing communications in a systematic, objective, and qualitative manner to measure variables.” (Soejono and Abdurrahman, 2005 : 12)

The subject of this research is the students’ bachelor thesis of English Department in IAIN Sultan Amai Gorontalo. A number of bachelor thesis that become subject were 16 bachelor thesis because there are many errors on those bachelor thesis when the researcher did the free observation. Then, the researcher took 2 bachelor thesis every year. This research used the purposive sampling to take the samples (Suharsimi Arikunto, 2013 : 83)

The technic of data collecting in this research used observation and documentation. This research will use the stage of observation according to Spradly such as: a) description observation, b) focused observation, c) selected observation. By doing observation, the researcher can see and record the sentence errors on students’ bachelor thesis. Then, there are three activities to analysis data; data reduction, data display, and conclusion drawing/verification (Sugiyono, 2015 : 245-246) Then, researcher used the surface strategy taxonomy to analysis and identify the sentence errors on students’ bachelor thesis.

C. Discussions

a. The Types of Sentence Errors on Students’ Bachelor thesis of English Education Department

Table 4.1 Omission Errors
